

OPERATIONAL NOTICE

SERVICE DISRUPTION DUE TO FLOODING

Dear Valued Customers,

Due to the ongoing flooding situation, transportation and commuting conditions have been adversely affected, resulting in some employees being unable to report for duty as scheduled. Consequently, cargo terminal operations and cargo towing services have been affected, leading to delays in the handling and processing of both inbound and outbound cargo.

The Terminal Operations Department sincerely apologizes for the inconvenience caused by these operational disruptions and greatly appreciates your patience, understanding, and cooperation.

We are closely monitoring the situation and making every effort to mitigate the impact on our operations and restore normal service as soon as conditions permit.

We thank you for your continued trust and understanding.

Terminal Operations Department
Thai Airways International Public Company Limited
